

CLAS Community Engaged Scholarship (CES) Project Development and Implementation Report

Faculty Member _____

Rank _____

Community Partner(s) _____

Review period _____

Planning and Implementation

1. Describe the mission, goals, and working relationship with the community partner(s).

Mission:

Goals:

Constituencies served by the partners:

State of the Relationship (new, ongoing, etc.):

2. Outline the shared goals of the project and briefly describe the theoretical framework that supports them.

3. Outline the timeline for the project and the steps taken to develop it during the current review period, giving special attention to your role in supporting the project, sustaining the community partnership, and ensuring best practices.

4. If applicable, describe the mentoring of students and the training of project participants in which you and your community partners have engaged as a part of this project.

5. Briefly describe any barriers encountered or changes in strategy taken by the project team that led to unexpected delays or commitments of extra time.

Review Period Outcomes. Using references to web or media links, written scholarship, creative work, data, or other appropriate documentation as support, summarize the project outcomes for the past year. If you are using a program evaluation research design to review and document outcomes, please indicate such and provide links or other appropriate documentation that clarifies the process.
